Projects:

Amazon Clone Website

Developed a fully functional Amazon clone website using HTML and CSS, showcasing meticulous attention to detail and delivering a seamless user experience. Successfully replicated the interface and functionalities of the original platform, ensuring a high degree of accuracy and fidelity.

Implemented responsive design principles to ensure optimal usability across various devices and screen sizes, resulting in increased user engagement. Collaborated effectively with a team of developers, contributing significantly to the successful implementation and launch of the project.

Utilized HTML and CSS best practices to create well-structured and maintainable code, enhancing the website's scalability.

Received positive feedback from users, demonstrating the effectiveness of the project.
